

Alan,

I would just like to thank you for an outstanding job in handling our account. I have dealt with several companies involved in web hosting and PHP programming and none have come close to offering the degree of service, expertise, and value that InfoServe Media has provided us. I would highly recommend you, and have, to anyone needing web hosting, web page design and/or tech support for his or her e-commerce needs. Once again thank you and I look forward to your assistance in helping me expand my Internet business opportunities.

Sincerely,

Mark Hooper
E-Commerce Director
