To whom it may concern:

I would like to take this opportunity to thank Info Serve Media and Alan Grissett for the outstanding job done on creating my web page, JCH Forensic Consultant. The web page has paid for itself many times over this year and has made my business more successful than I ever dreamed.

Not only am I satisfied with the web page, but more importantly the above and beyond service throughout the year. Each time I have asked Alan to change something in the web page, the change has been made the same day.

I would highly recommend Info Serve Media to anyone who wants to develop a professional web page, and have great service throughout your involvement with this outstanding company.
